

Biomed Grid Summer School 2007

Villa Monastero, Via Polvani 2, Varenna, Italy

Certificate of attendance

This is to certify that **Paolo Cozzi** attended the Biomed Grid School held in Varenna on 14-19 May 2007. The course covered the use and development of applications for distributed computing environments.

In particular the course focused on:

- new services and functionalities made available by middleware releases (gLite)
- the implementation of applications in the EGEE GRID environments
- the development of high level interfaces for GRID and Web Services for data provision and management
- Web Services, workflow technology and GRID services for Bioinformatics e Biomedical applications
